

The Eo Folding Classical Travel Guitar

Travel soundly!

The world's smallest full size travel classical guitar.

Folded - 420mm long

Unfolded - full Size classical 650mm scale

- Tiny and light (1.5kg) for travelling or to keep discreetly.
- Detachable side shapes - robust aluminium or wood.
- Innovative patented technology.
- Only 42 cm long when folded - goes in hand case!
- Beautiful construction in hardwood, cedar and ebony .
- Fast and easy - out of case, ready to play in seconds.

- String tension is maintained when folded-
 - Nylon string relaxation in tuning is minimised.
- Silent for discreet practice e.g. in hotel or at your work desk.
- Be free to rehearse whenever you want to -
 - Not only when the space allows you to have your full size acoustic instrument.
- Standard classical guitar geometry - 52mm nut.
- Headphones for private playing.
- Piezo pick up with FET preamplifier.
- High dynamic range linear amplifier output stage.
- Line output for external amplifier.
- 6.35mm standard, robust, jack socket.
- Easy to change 9Volt battery (type PP3, 6LR61, 1604A).
- Robust and simple joint mechanism, precision CNC machined.
- Patented under 2419219A, 2428862.
- Design Registered under 5000786.
- Supplied with headphones, jack socket adapter, nylon carry bag.
